

EHKAY CORNER TAILORS

MEASUREMENTS

Measure your **NECK**

Measurement 01: Neck

Measure around your neck at the level your shirt collar would sit. You should not feel restricted by the tape for a comfortable fit, and should be able to put your index finger inside the tape.

Measure your **CHEST**

Measurement 02: Chest

Measure horizontally around the chest roughly at nipple level, under the armpits and over your shoulder blades. You should only just be able to feel the tape on your chest. Do not over-inflate your chest but stand normally. You should be able to fit your index finger in between the tape and your chest.

Measure your **FRONT CHEST**

Measurement 03: Front Chest

Measure from the end of your left front chest to the end of your right front chest. This is a skin measurement.

Measure your **BACK CHEST**

Measurement 04: Back Chest

Measure from the end of your left back chest to the end of your right back chest. This is a skin measurement.

Measure your **STOMACH**

Measurement 05: Stomach

Measure horizontally around your stomach, at the widest point. Make sure the tape is snug but you should be able to put your index finger inside the tape.

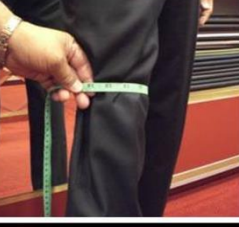

Measure your **WAIST**

Measurement 06: Waist

Measure horizontally around your waist, just inside where you prefer to wear the top of your pants. Make sure the tape is snug and does not ride over the waistband but you should be able to put your index finger inside the tape. As a guide, this measurement will be about 2 inches above what you take off-the-peg...they like to flatter, and unfortunately we need real measurements.

 <p>Measure your TUMMY</p>	<p>Measurement 07: Tummy</p>	<p>Measure horizontally around your tummy, at the widest point. Make sure the tape is snug and does not ride over the tummy but you should be able to put your index finger inside the tape.</p>
 <p>Measure your HIPS</p>	<p>Measurement 08: Hips</p>	<p>Measure around your hips and buttocks at their widest point. Make sure your pockets are empty and the tape is not restrictive. As a guide, you should not make the tape too snug. You only just be able to feel the tape when measuring.</p>
 <p>Measure your FULL SHOULDER</p>	<p>Measurement 09: Shoulder Width</p>	<p>Measure from the end of your left shoulder to the end of your right shoulder. This measurement should be equal to the desired width of the jacket's shoulders.</p>
 <p>Measure your JACKET LENGTH</p>	<p>Measurement 10: Jacket Length</p>	<p>Measure vertically down from your front, just next to the collar on your garment, where the seam is on your shoulder, to where you would like the jacket length to end.</p>
 <p>Measure your FRONT VEST LENGTH</p>	<p>Measurement 11: Vest Length</p>	<p>Measure from where your shirt collar meets the very top ridge of your shoulder to below your belt line.</p>
 <p>Measure your ARMHOLE</p>	<p>Measurement 12: Armhole</p>	<p>Measure around your armhole from shoulder point to shoulder point, where the seams on your shoulder meet. This measurement is a body measurement and there will be an allowance added to it according to the fit that you chose.</p>
 <p>Measure your SLEEVE LENGTH</p>	<p>Measurement 13: Left Sleeve Length</p>	<p>Measure your left sleeve from where the seams on the shoulder meet to where you want the sleeve to end. The measurement you input will be the measurement of your jacket left sleeve.</p>

 <p>Measure your SLEEVE LENGTH</p>	<p>Measurement 14: Right Sleeve Length</p>	<p>Measure your right sleeve from where the seams on the shoulder meet to where you want the sleeve to end. The measurement you input will be the measurement of your jacket right sleeve.</p>
 <p>Measure your UPPER ARM</p>	<p>Measurement 15: Upper Arm</p>	<p>Measure around your upper arm at your muscle point. This measurement is a body measurement and there will be an allowance added to it according to the fit that you chose.</p>
 <p>Measure your HAND CUFF</p>	<p>Measurement 16: Wrist</p>	<p>Measure around your wrist. Make sure the tape is snug and you should be able to put your index finger inside the tape. This measurement is a body measurement and there will be an allowance added to it.</p>
 <p>Measure your THIGH</p>	<p>Measurement 17: Thigh</p>	<p>Empty your pockets, then measure around your thigh at the widest point (usually as high as you can go without it getting embarrassing). You should be able to fit your index finger in behind the tape.</p>
 <p>Measure your KNEE</p>	<p>Measurement 18: Knee</p>	<p>Keep your leg straight and measure comfortably around your knee at the widest point. This is a skin measurement.</p>
 <p>Measure your PANT CUFF</p>	<p>Measurement 19: Ankle</p>	<p>with the shoes, covering between 1/2 and 2/3 of their surface. Narrow ankles will make the shoe look large, the trousers sit higher (and therefore need to be shorter), and vice versa. One tip is to measure the ankle width of some trousers you like the cut of. To do this simply lay them flat, measure one side and then double the measurement. Your measurement input will be the measurement of your ankle.</p>
 <p>Measure your CROTCH</p>	<p>Measurement 20: Crotch</p>	<p>Measure from the top of the waistband at the front, between your legs, to top of the waistband at the back. Allow as much space as needed for comfort.</p>

Measure your PANT LENGTH

Measurement 21: Pant Length

Measure from the top of the waistband, keeping the measure taut, down to where you wish the bottom of the pant to end. Please bear in mind the fit you want over the shoe as this will affect the desired length.

Neck Stance

		NS-01	Normal
		NS-02	Neck forward
		NS-03	Neck backwards

Arm Silhouette

		AS-01	Normal arm
		AS-02	Coming forward arm
		AS-03	Going backwards arm

Front Chest Silhouette

		FCS-01	Normal chest
--	--	--------	--------------

		FCS-02	Very bulging chest
		FCS-03	Caving in chest
		FCS-04	Slightly protruding chest
		FCS-05	Well padded chest

Back Silhouette

		BS-01	Normal back
		BS-02	Curved back
		BS-03	Hump back
		BS-04	Upper back curved
		BS-05	Upper back curved, short forward neck

Neck Height

	NH-01	Normal neck
	NH-02	Short neck
	NH-03	Long neck

Seat Stance

	SS-01	Normal seat
	SS-02	Prominent seat
	SS-03	Very bulging seat
	SS-04	Heavy seat
	SS-05	Flat seat
	SS-06	No seat, slightly inward curve

Shoulder

	S-01	Normal shoulder
	S-02	Square shoulder
	S-03	Both slightly sloping shoulder
	S-04	Both very sloping shoulder
	S-05	Left sloping, right normal shoulder
	S-06	Left normal, right sloping shoulder
	S-07	Left slightly sloping, right very sloping shoulder
	S-08	Left very sloping, right slightly sloping shoulder

Standing Stance

	STS-01	Normal
	STS-02	Slightly forward
	STS-03	Very forward
	STS-04	Backward erect

Stomach Silhouette

	SMS-01	Normal
	SMS-02	Washboard
	SMS-03	Slightly bulging
	SMS-04	Bulging
	SMS-05	Beer belly
	SMS-06	Pot belly

Waist Stance

	WS-01	Normal waist
--	-------	--------------

	WS-02	On naval
	WS-03	Low waist
	WS-04	Very low on hips
	WS-05	Slightly high waist
	WS-06	High waist
	WS-07	High waist, slightly bulging stomach
	WS-08	High waist, very bulging stomach
	WS-09	Low in front, large belly
	WS-10	Low in front, bulging stomach

	WS-11	Very low in front, bulging stomach
	WS-12	Under the belly, protruding tummy
	WS-13	Very low under the belly, high at back
	WS-14	Straight across, under the belly, beer belly

Thigh Stance

	TS-01	Normal thighs
	TS-02	Heavy thighs
	TS-03	Large muscular thighs
	TS-04	Thick thighs

LEG STANCE

	LS-01	Normal
--	-------	--------

	LS-02	Bent outwards
	LS-03	Slightly outward bent
	LS-04	Bow legs
	LS-05	Very erect prominent calves
